

# MODEL 115 PLATYPUS

## Mobile/Modular Home Mover

The Model 115 Platypus is equipped with Heavy-Duty Excavator type tracks (street pads) for dependable long service life, expertly designed to make lifting and moving mobile and modular housing units quick, easy and safe! The Platypus's hydraulic system, powered by a Kohler 2 cyl. 4-cycle 27 HP engine, provides the power and flexibility to accurately position the housing unit, even on the most demanding of worksites.

# Introducing the All-New Model 115 Platypus Move it, Steer it, and Lift it into place

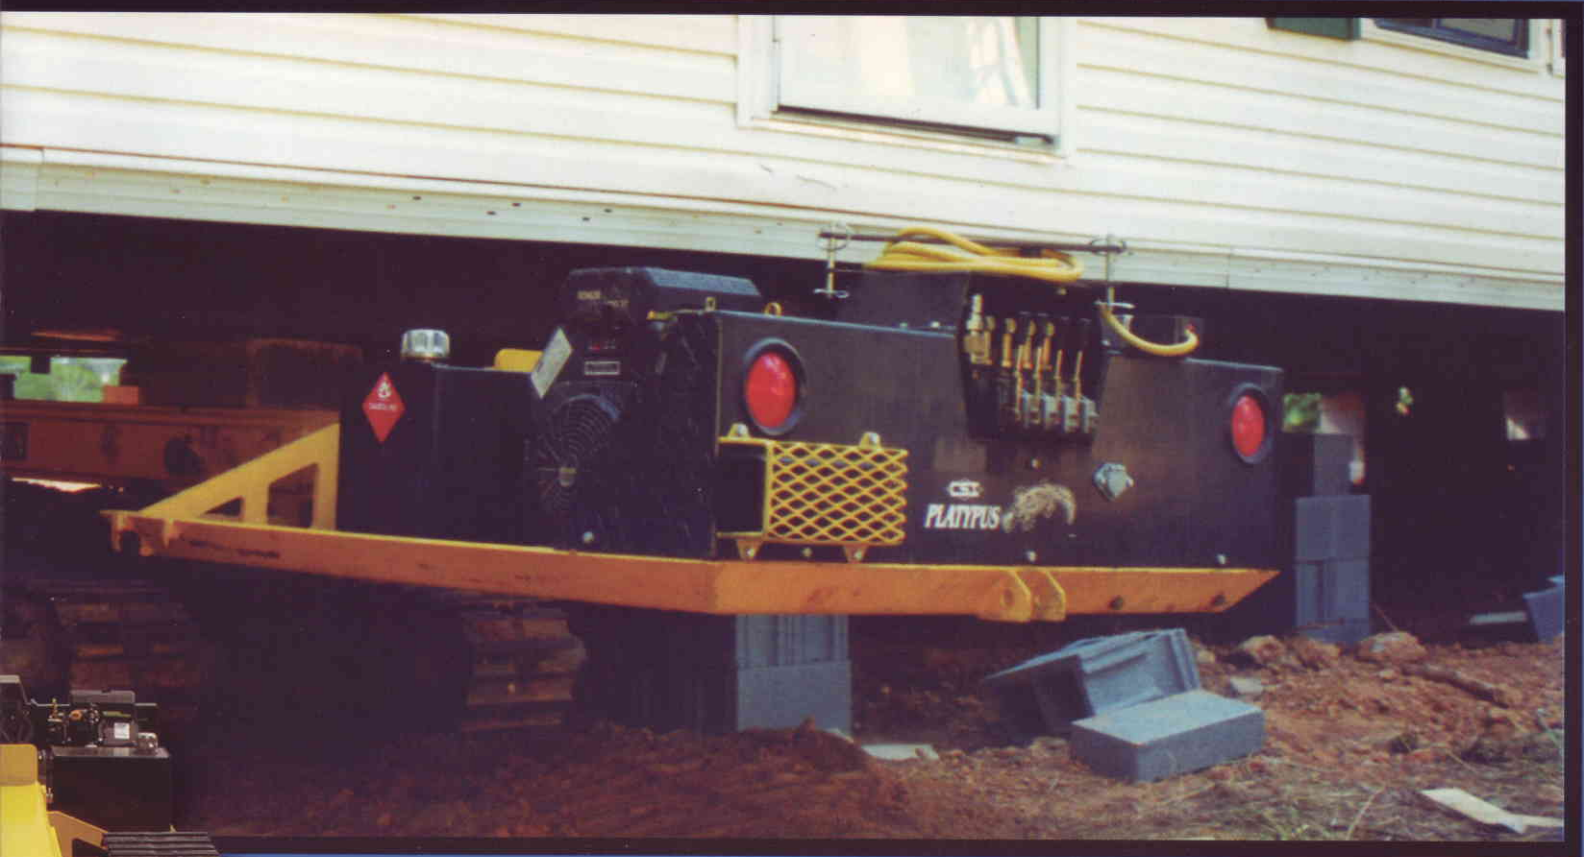

High or low,  
and everywhere  
in-between!

The Model 115 - FLEXIBILITY  
Platypus offers the - ADAPTABILITY  
mfg'd home mover: - DEPENDABILITY

# Platypus Mobile / Modular Home Mover Easily, Quickly, Safely, and Precisely

The CSI Model 115 Platypus lifts and moves manufactured housing units with ease. Mating the halves of a modular or doublewide home is achieved without jacking or rolling. As a result, productivity is higher and the jobsite is safer. The Platypus's umbilical remote control removes the operator from a hazardous position and allows an unobstructed view of the work zone. By reducing hazards and man-hours per set, the Platypus offers a quick return on investment by lowering major cost factors.
